

Hello again everyone!  
Yes, I'm back. I hope no one missed me too much. I trust you all got some of the amazing games since the last reviews. I know I've been busy filling my game time with some awesome stuff. I've got two portable games for you this time... so let's get into it!

## Hurry Up Hedgehogs!

**Developer:** Involgamus  
**Publisher:** Oxygen Interactive  
**Platform:** Nintendo DS  
**Genre:** Board Game  
**Reviewed on:** Nintendo DS

First off, this feels like it belongs on a casual flash game website. Hurry Up Hedgehogs is based on a German board game of a similar name. You have to get three of your four hedgehogs across a 6 x 9 grid before your opponent. Sounds simple but, it's not really. Unfortunately, it should probably have stayed an obscure German board game. The box says there are 35 ways of playing this little game, which I didn't totally agree with. It just means there are a few options you can select to make the game a little different.

Now, don't get me completely wrong, Hurry Up Hedgehogs has an upside. It will provide you with maybe an hour's fun, once you understand it, which might take longer than an hour! It's more fun when played with friends too. However, that is what I would say to those of you who own this game already. If you don't, then I would not suggest spending money on buying it. Maybe in a few years when it's at the bottom of the bargain bin and you absolutely LOVE board games of every nature... then yeah sure, buy it.

**My score :**  
**4/10**

## LocoRoco 2

**Developer:** Sony Computer Entertainment Japan  
**Publisher:** Sony Computer Entertainment Inc.  
**Platform:** PSP  
**Genre:** Puzzle/Platform  
**Reviewed on:** PSP

The sequel to the very successful and acclaimed LocoRoco is here! This is definitely a must-have title for the PSP. As with the first title, you play a bouncy, squishy ball that needs to get to the other side of the map by tilting the playing area left and right with the use of the shoulder keys. The gameplay is relatively simple but, there are many puzzles and hidden areas that can become very challenging and tricky.

The game plays out to a very cute and addictive soundtrack and all the sounds and visuals in the game draw you into the experience. Rolling around a platform hasn't been this much fun since the last title and before that, not since the first Sonic. There are several terrains and obstacles to complete in your quest to rid the world of the Moja that are infesting the stunning world of LocoRoco. My only criticism of this game would be that it is a little too short but, maybe it's just a case of time flies when you're having fun!

If you have a PSP, go now and buy this game. If you don't own a PSP, consider getting one just for this game!

**My score: 9/10**
